

# Experience the CS60 ? A Unique Japanese Body Care Method

## What is CS60?

CS60 is an original body care tool created in Japan, designed to offer a distinctive experience.

Unlike general massages that mainly target muscles, the CS60 session provides a different kind of touch, which many people describe as giving them a sense of comfort and ease.

## The CS60 Difference

Our approach is simple: we aim to provide an opportunity for your body to feel lighter and refreshed.

While we don't provide medical treatment or promise specific results, we focus on creating a session where you can explore new sensations in your body.

During a session, you may feel a unique "pleasant pressure" as we work on areas of stiffness.

This is often followed by a sense of looseness and lightness, leaving you with a refreshed feeling afterward.

We invite you to experience CS60 for yourself and enjoy this unique Japanese body care approach.
